Plans & Pricing

How long does onboarding take?

The timeline depends on the scale and complexity of your infrastructure:

- **New Businesses / Lean Setups:** Onboarding can often be completed in **a week or less**, quickly getting your users, emails, and endpoints under management.
- **Larger Businesses & Migrations:** Migrating established networks, complex legacy servers, or multiple sites typically takes **1 to 2 months**, allowing for thorough audits, testing, and a seamless handover with zero unexpected downtime.
